RED IMMUN SMOOTHIE

Item No.: 5449222

Colourful and delicious – smoothies have been popular cold, mixed soft drinks for many years. Predominantly made from fruit and vegetables, they come in many different versions. Instant smoothies made from powdered fruit and vegetables are becoming particularly popular.

We have developed an immune smoothie, characterised by its high content of vitamin C and D. Both vitamins contribute to a healthy functioning immune system, and vitamin C also helps to reduce tiredness and fatigue. Our smoothie contains 13 different fruit and 9 different vegetable powders as well as goji, acai and acerola extracts. A fruity aroma of forest fruits completes the taste.

Benefits

- Refreshing smoothie with 13 fruit and 9 vegetable powders
- Contains extracts of goji and acai berry as well as acerola cherry
- High vitamin C and D content
 - Vitamin C and D contribute to the normal function of the immune system.
 - Vitamin C contributes to the reduction of tiredness and fatigue.
